

# *Free Clinical Trial: Is Your Cat Anxious at the Veterinary Clinic?*

The Behavioral Medicine Service is recruiting for a Travel and Veterinary Anxiety Study!

## **Inclusion:**

- Greater than 1 year old
- Anxious (vocal, hiding, hissing, growling) when travelling and/or during vet visits

## **Study Benefits:**

- **Free** physical exam
- **Free** treatment intervention during the study
- **Cat toy** at completion

Upon enrollment each cat will undergo two veterinary visits where the Behavioral Medicine Service will be evaluating a pharmacologic anti-anxiety treatment for the improvement of anxiety during travel and during the physical examination.

To see if you qualify for this study, fill out the following questionnaire: [Feline Anxiety Questionnaire](https://tinyurl.com/Catanxiety)(<https://tinyurl.com/Catanxiety>)
